Delegate Kuhio has a record for accomplishing results in Congress which we believe will compare favorably with the first term of any Congressman during the session preceding the Presidential election. In general appropriations for department work it will be found that Hawaii got as fair a proportion as any Congressional district. The Delegate has the support of business men. He is popular with the people who will not be misled by the stories of the threatened hobo brigade.

The approaching campaign finds the party thoroughly united on the vital principle of local self government. The liberal and conservative elements have reached a common ground on which they can harmonize. Though the first county experiment was unfortunately a failure, the sentiment of the party will not allow any such program as permanent failure to have a place in Republican history. The Republican administration has held strictly to the law on the question of citizen labor and stands ready to make the record continuous. In fact there is no vital issue which the administration has met in the spirit of evasion or on which the rank and file of the party is seriously divided.

The Republican party can say "we view with pride" without making any apologies for the expression. It can go before the people with declarations given the solid endorsement of the rank and file, making no impossible promises and thus furnishing the best guarantee of accomplishment.

The candidates for the Senate and House thus far suggested are men of good standing in their respective island communities. There is enough of them to add spice to the canvass for votes in the conventions, and unless serious errors of judgment are to be recorded those who fail to secure the majority vote of the conventions will accept the vote as final.

From every standpoint the Republicans face a situation which had management and sudden springing up of factionalism, or over confidence can alone make generally unsatisfactory or difficult.

REPUBLICAN PROSPECTS.
 The outlook for the Republican party previous to the assembling of conventions for shaping the declaration of principles and nominating candidates has never been more reassuring in the history of the organization. The only thing that can injure the prospects is some grievous error committed in the conventions, and party sentiment is solidifying in such harmonious grooves that serious mishaps are improbable. One of the best assets with which the party has to start is the good feeling toward the Territorial Executive which Governor Carter has been so successful in building up. In every other campaign, it has been party success in spite of the executive. If the head of the government did anything with a view to adding the party by promoting closer relations between the people and the executive authority, it was so ably shrouded in complex profundity as to remove all chance of practical usefulness or appreciation by the public. Governor Carter, on the other hand, has endeavored to keep in touch with public sentiment without belittling the dignity of his office. He has done the amazing—in Hawaii—thing of placing confidence in the people and exemplifying a few real American principles in the methods of government. This, despite the hard times, and the retrenchments and various difficult situations to contend with, has resulted in a reciprocal sentiment of confidence. The Territory is profiting under the development of liberal ideals. The Republican party cannot fail to be the gainer.

In the Congressional field Delegate Kuhio will go into the campaign with the solid support of the party, and a record for earnest promotion of Hawaii's necessities in Federal circles. The only opposition thus far suggested is sort of a hobo brigade which, it is claimed, will return from Washington and say unpleasant things of the Delegate. If the confidence the Delegate reposed in those he selected as his assistants was misplaced, it is a misfortune which he no doubt regrets more than anyone else can. When these representatives of misplaced confidence return to pour out vials of spite, the

boomerang effect will be suffered by themselves alone.

AN SANG ESCAPES LAW **JEFF'S PIGEON CAUSES STILL MORE TROUBLE**

FUGIMOTO, A JAPANESE, HAS TO FACE CHARGES OF BURGLARY LARCENY AND VAGRANCY.

The session of the Police Court this morning was unusually dull. An Sang, the Chinese who borrowed \$20 from Mrs. C. W. Dickey on a cheap watch, appeared charged with gross cheat. Before the case came to trial Judge Lyle Dickey came to Deputy Sheriff Chillingworth and announced that the case had been settled out of court. An Sang having given back Mrs. Dickey her \$20. The police were not a little disgusted at this procedure, but as the complainants declined to prosecute, the authorities could do nothing but enter a nolle pro in the case.

Fugimoto, the Japanese, who is alleged to have stolen silks from B. H. Yasu and other places, appeared under three separate charges, namely, larceny in the second degree, vagrancy, and burglary in the second degree. All three cases were continued until Monday.

Jefferies had to face two charges of assault and battery. The matter grows out of the possession of a fental pigeon. Judge Lindsay has already had considerable to do with the case in the civil court and will now have to handle it from a criminal standpoint. It seems that Jeff and Mrs. Lutz Pickersle are neighbors. Some time ago a fental pigeon belonging to Jeff took up its residence in Mrs. Pickersle's pigeon coop. Jeff brought suit and obtained judgment for the restitution of the pigeon or its value, rated at \$2.50. Mrs. Pickersle paid the \$2.50 but Jeff wanted the bird and had Mrs. Pickersle appear before Judge Lindsay on contempt proceedings. Mrs. Pickersle was discharged but since then the parties seem to have discussed the matter without the peaceful intervention of the courts. The innocent pigeon has created so much trouble that the court officers heartily wish it had never been hatched.

Manuel Correa, charged with assault and battery on Ho Poi; and J. C. White, charged with assault and battery on Ho Len, both had their cases continued until next Tuesday.

Hilo, Aug. 19.—One of Professor Barton's party of ladies from Boston, who have been studying the volcanoes of Hawaii, had an experience during her stay at Kilauea which she will not soon forget. Miss Mary Lincoln, a school teacher of Medford, Mass., being of a more inquiring turn of mind than the rest, could hardly be persuaded to leave the inner pit of the crater to attend her meals. She spent the whole of one day from 9 a. m. to 5 p. m. looking into the yawning vent hole of Madame Pele. On Sunday afternoon, alone and without any precautions as to lunch or wraps, Miss Lincoln undertook to make the circuit of the crater. When she failed to show up at nightfall, Manager Bidgood sent out a searching party with lanterns. They were gone all night finding with difficulty, on the Kau side of the crater the wayward miss, numb with cold and weak with hunger. Otherwise, she suffered no ill effects from the hardship of her all night experience.

Hilo, Aug. 19.—The Young Men's Republican Club are considering the question of the entertainment of the delegates to the Territorial Convention while they are in Hilo. The convention meets September 1, and there is a general desire that the delegates shall remain in the city longer than one day. It is proposed to give those delegates who attend such a royal welcome that they will wish to hold the convention here again next time. There have been various suggestions made for a mammoth luau, a camp fire meeting and an open air mass meeting. A committee consisting of Jas. D. Lewis, S. L. Desha and Chas. Akau have been appointed to consider the various propositions and make a report at the next regular meeting of the organization. The Hilo Board of Trade have taken up the question of hotel accommodations, and where delegates cannot be accommodated in the various hostels and boarding houses, private citizens have been called upon to give entertainment to one or more of the visiting delegates. Elsewhere is printed a list of the delegates and doubtless many will receive personal invitations from Hilo friends to visit them during their stay.

The Republican District Committee will meet in convention at Fireman's Hall on Saturday, September 3, at 10 o'clock a. m. for the purpose of adopting a platform and nominating candidates for the senate and house of representatives.

Hilo, Aug. 19.—About 4 o'clock Sunday morning, fire was discovered in the Honohina plantation store, and, before the flames could be extinguished, quite a hole was burned in the roof of the building. No cause was ascribed for the blaze, as there had been no one in the building since Saturday evening. Aside from slight damage to the building and stock by water, no great loss was suffered. One hundred dollars will cover damages.

CLERK BOARD OF HEALTH
 Of Jacksonville, Fla., Endorses Peruna.

C. D. Taylor, Clerk of the City Board of Health of Jacksonville, Fla., has occupied that position for the last ten years. In a recent letter to the Peruna Drug Mfg. Co., he expresses his approval of their famous catarrh remedy Peruna in the following words:

"The health of the poor of a large city is always a question of vital interest not only to the city officials but to every citizen. It has been a source of much satisfaction to me to find that so large a number of working people in moderate circumstances have accepted Peruna as their family medicine. It has cured a large number of cases especially of catarrh of the head, lungs and stomach and building up the general health it cannot fail but prove a help and blessing to any community where it is generally adopted and used. I have found it an honest reliable remedy and am pleased to endorse it."—C. D. Taylor, Clerk, Board of Health.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

For special directions every one should read "The Ills of Life," a copy of which surrounds each bottle. Peruna is for sale by all chemists and druggists at one dollar per bottle, or six bottles for five dollars.

Those wishing direct correspondence with Dr. Hartman and can wait the necessary delay in receiving a reply, should address Dr. S. B. Hartman, Columbus, Ohio, U. S. A.

PARIS ON COUNTIES **WANTS ONE COUNTY AND DISTRICT SUPERVISORS**

SENTIMENT ON WEST SIDE OF HAWAII HAS CHANGED SINCE ELECTION TWO YEARS PREVIOUSLY.

Senator J. D. Paris of Hawaii, who is in the city today, says the people of his district are very much interested in county government and in the work of the commission which meets weekly in Honolulu.

"Although I was in favor of two counties for Hawaii two years ago, when the county law was up in the Senate, there have come about a number of changes in conditions which have made me change my mind. I am now in favor of one county for the Big Island providing the members of the Board of Supervisors are made elective from districts. For instance, if the Board were to be constituted of seven members, there would be one for North and South Kona, one for the Kohala, one for Hamakua, one for Hilo, one for Puna, one for Kau, and one at large.

"I think the weight of the sentiment on our side is for one county, although we have, of course, a number who are strongly in favor of two. The two county supporters, however, base their attitude on sentiment and local patriotism. We feel patriotic enough over our way but it is simply a matter of business. There is not wealth enough in West Hawaii to properly support a separate county.

"The subject was debated considerably at a political meeting at Kau recently. Mr. Nahale, who was elected Auditor of our county before, showed a statement of the taxable property in West Hawaii which was conclusive and to the point. Mr. Nahale does not believe that the island should be made into two counties.

"There are difficulties that I could mention opposed to two counties, but they are not so great as those we would be under in one county.

"I am in favor of one county if they will give us district representation on the County Board. Otherwise, I am still in favor of two counties."

BOYD DID NOT DIE
 (Continued from Page 1.)

extent of some \$20,000 or \$30,000, and who was the other day arrested on a charge of beating his wife, was the chief actor. If, indeed, it can be said that he was acting—in the supposed tragedy.

Apparently in perfect health when he went home yesterday, ex-Land Commissioner Boyd is said to have been discovered upon his bed by one of the little ones of the house, in an apparent state of pain. Mrs. Boyd was notified and her brother rang up Doctors Murray and Humphris, who responded quickly. Boyd, as far as the lack of outward manifestations might indicate, seemed no more. The incident went even to the extent of his supposed condition reaching the ears of a worthy clergyman, who prepared to say prayers over the remains, when the happy thought of placing ammonia on a handkerchief beneath his nose was acted upon and, as Mrs. Boyd's brother expresses it, Boyd "came to life pretty quick."

A look of wisdom spread over the features of the learned medicos and some kind friend intercepted the ministering ecclesiastic on his way to say prayers.

It is said that the doctors found nothing physically wrong with Boyd. An hour or two after the impromptu resurrection all was said to be well, remission, reconciliation, explanations and mutual forgiveness having restored that poetic peace for which Wai-kiki is justly famed.

The story could not be buried any more than Boyd, and the Judiciary building and other public places were full of it this morning.

"Dead!" said one who knows, who was there, "why, Boyd hadn't the slightest intention of dying."

At the Moana Hotel the report was that Boyd had killed himself.

Boyd himself was seen this morning and asked concerning the incident. "There is absolutely no truth in any rumor of my trying to kill myself or of my pretending to do so," said Mr. Boyd. "I had been naturally worrying a great deal over the action of my brother-in-law in causing me to be taken to the police station because of a little altercation between my wife and myself. I felt dizzy and I must have swooned away. I did not regain consciousness until the doctors gave me a hypodermic injection and administered ammonia to my nostrils. I was certainly not shamming. My unconsciousness was genuine. It may be a joke to some, but I took it seriously. I was worried about my arrest and made myself sick over it—that is all. There would have been no trouble between my wife and myself but that my brother-in-law butted in."

HOTEL FOR HILO
 Hilo, Aug. 19.—The Hilo Board of Trade has decided to take up the matter of a hotel in Hilo, and when that organization takes up a subject, the people may be sure it will receive the most careful consideration and, if feasible, become an accomplished fact. At a meeting of the executive council last Tuesday night at the Board of Trade rooms, the necessity for a public hotel in Hilo was conceded and forthwith that body, which is composed of the substantial business men of the town, determined to organize a hotel company. The Board of Trade will be the promoters of the project, which insures the success of the enterprise. The capital stock of the company was fixed at \$25,000, the shares to be distributed among the business men and members of the Board. E. N. Holmes, President of the Board and Secretary H. Vicens were authorized to see what outside support can be secured. It is believed the transportation companies running out of Hilo, and nearly all of the plantation people in the vicinity of Hilo will subscribe liberally to the stock. It is proposed to secure entirely island capital, and distribute the shares so as to make the hotel a cooperative concern. If satisfactory arrangements cannot be made with Spreckels with a view of leasing the present hotel property, the plan is to build on some suitable location, for which three sites have already been offered. The question of details and management have not been considered, but it is understood the right man can be readily secured. Architect Richley has already made drawings of a proposed hotel building, to be located on Reed's island, which contemplates beautiful grounds and driveway through Riverside Park.
